

Peak Performance U—9 Essential Skills for the Workplace is a powerful online course that develops the critical skills that students need to succeed in the workforce. Driven by videos from industry leaders and sports icons, supplemented by rigorous worksheets and activities, the course covers 81 topics recognized by business and industry as necessary for a student’s workplace success.

Local Education Agencies (LEA) can take advantage of this interactive, in-depth course for an affordable yearly licensing fee (per school campus). *Call Paul Vitale at 501.626.2630 for special pricing.* In addition, the **Peak Performance U Education Session** presented by Paul is highly recommended for optimal success. During the education session, Paul will spend one hour with students in either a classroom or assembly setting. He will not only peak their interest in this innovative program, he will inspire the students to embrace their abilities to perform at their maximum. Paul will then spend an hour with the school’s course instructors, administrators, and IT department familiarizing them with not only the workings of the LMS powering the lessons* but also the subjects explored within. The **Education Session** is not mandatory but is strongly recommended and necessary for increased impact.

Additional or extended training is available for an added cost according to your needs. Contact Paul via email at pvitale@paulvitale.com or by telephone at 501.626.2630 to secure your license and discuss the potential **Peak Performance U** can bring to your students and school!

**When purchasing a license, school administrators will be given written instructions on course set-up and management. License fee includes unlimited users per school campus/LEA.*
